## LAST WEEK'S BUDGET ANNOUNCEMENT

The government is committed to empowering democratically elected local leaders at every opportunity. To this end, the government intends for the functions of Local Enterprise Partnerships (LEPs) to be delivered by local government in the future. Therefore, the government is minded to withdraw central government support for LEPs from April 2024. DLUHC and the Department for Business and Trade will now consult on these proposals, before confirming a decision. The government will publish an updated policy position to confirm next steps by the summer.
